

Name _____

Patriotic Symbols

STATUE OF LIBERTY

The New York statue greeted immigrants coming to the country as a symbol of freedom. The date on Lady Liberty's tablet, July 4, 1776, is the day America declared independence from Great Britain.

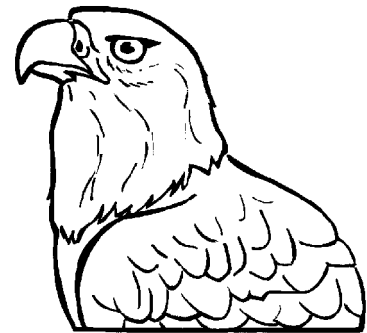

U.S. FLAG

The flag has 50 stars for each state and 13 stripes for the original 13 colonies. The colors have come to represent our country's values; red for bravery, white for purity, and blue for justice.

GREAT SEAL

The Great Seal reflects the values of the Founding Fathers. It contains many symbols such as our nation's bird the eagle, an olive branch for peace, and thirteen stripes.

BALD EAGLE

The bald eagle is unique to the United States. It was chosen as a symbol for the country because of its long life, strength, courage, and good looks. It can be found on the dollar bill and the Great Seal.

UNCLE SAM

The figure dressed in red, white, and blue with a white beard is based on a real man named Samuel Wilson. But Wilson didn't look anything like the image. Uncle Sam's image was created by political cartoonist and used to recruit soldiers.
